Managing Editor's Desk

I am feeling very proud to dedicate the journal, Scienxt Journal of Nursing Studies to the teaching community of our country. I believe that, education and knowledge change ones perspective of life. It changes and enhances the lifestyle and quality. Any small efforts taken in this regard give me immense pleasure.

Nursing Studies is considered one of the new and ever-evolving sciences and continually expands in the Nursing arena. With this rapid growth, there is need for improvement in every field. And I feel it is likely to continue as long as there is existence of human beings.

This journal is an Endeavour of Scienxt group and is committed to excellence in Nursing Studies. It will be released quarterly with high-quality content related to contemporary research, articles, documents and book reviews useful to the Community Health and Nursing fraternity. I hope this journal provides a forum for International Nursing Studies to present and discuss matters of major interest and new developments in Nursing Studies

Scienxt Journals are peer-reviewed open access/ print/ online journals. Various specialised subject areas of focus and scope are Science, Technology, Engineering, Management, Healthcare and different areas of Humanities. We aim to publish quality research articles that create impact and ensure sustainability which in turn will create a better future for the next generation.

Having roots in the publishing of technical and competitive books, the scienxt team understands the need of quality publication of advanced science, technology, and health care today. We are proud to be associated with various scientific and scholarly societies and associations, researchers, research institutes and universities across all subject areas around the globe in achieving excellence.

We are a dedicated team of educationists, technocrats, and entrepreneurs with vast experience in various fields. Eminent educationists, industrialists, philanthropist, bureaucrats and scientists around the globe guide the team as advisory and editorial board members. Our collective goal is to promote the use of research facilities for community welfare and technology growth.

In this endeavour, I seek your contributions/participation in whatever capacity. Entire team of Scienxt Journals will be looking for your regular advice, guidance and support as we navigate. We are confident that you would make a valuable suggestion, contribution to the journal, make a positive impact on research community and bond people with similar interests.

Let's join hands together and work towards discovering science for next generation-SCIENXT!!
